SRI GOUTAMI JEEVAKARUNYA OLD AGE HOME

Staff and Students of Zoology at Sri Goutami Jeevakarunya Old age Home entrance with Groceries

9-12-2023

The Community Bonding Service, organized by the Department of Zoology on 9-12-2023, aimed to support an old age home. The students from various sections within the department, including BZC, B.Voc., MZC, and FMZC, raised funds for this event. Additionally, the staff members also contributed financially. Goutami Jeevakarunya Society in Rajamundry was identified as the old age home in need of assistance. The society houses 90 elderly individuals of both genders and 30 orphan children. Utilizing the collected funds, the students purchased two bags of rice, dal, oranges, biscuits, and chocolates, which were then distributed among the elderly residents and orphaned children. The event witnessed the participation of ten students and faculty members from the entire department.
