About the FDP

Mathematics, which is familiarly known as, **queen of all sciences**, is having lot of applications in various branches of Physical, Natural, Engineering and Social sciences. Concept of Mathematical Modelling being used to study phenomenon in various branches of science using different mathematical concepts.

It is an established fact that proper understanding of basic concepts in Mathematics, play a pivotal role in promoting interest in learning Mathematics and to use in various applications.

The proposed webinar is intended to promote and create interest in teaching and learning process of basic concepts in Abstract Algebra with a special emphasis on Group Theory, among student community through teaching faculty.

Topics to be discussed

1. Basics of Set, Relation and Function
2. Definition of a Group and Subgroup
3. Normal Subgroups
4. Cyclic groups
5. Homomorphisms

Objectives of the Webinars

- ✓ To discuss the fundamental concepts of the topics identified in Abstract Algebra in student point of view.
- ✓ To create interest among students in learning process.

Expected Outcome

A thorough understanding of the basic concepts in Abstract Algebra and provide a re-view to all teachers to facilitate the student for better learning.

Target Audience

Faculty teaching Mathematics at UG Level in Colleges/Institutions/Universities

Requirements

- ✓ The webinar is open to all faculty of Mathematics of any Indian University/College
- ✓ Participants are expected to have a laptop/desktop with good internet connection (At least 2Mbps). However, Two Gadgets (i.e. Laptop/Desktop with webcam and smart phone are essential for active participation in final assessment)
- ✓ Digitally verified (QR coded) e-Certificate will be issued to only those who continue in the webinar for 2 Hours of FDP
- ✓ Program will be organized through **Google Meet Platform**
- ✓ All the participants are requested to register by paying ₹ 100 on or before 4 June 2020.
- ✓ Payment may be made to
A/C No: 50100189369555,
Name of the Account: **Principal & Convener SemGovt(A) CLGRJY; HDFC Bank;**
IFSC Code: **HDFC0000215.**

Principal Sir's Speech About BIA(2K20) :

Dr. Rapaka David Kumar Swamy Principal said that it gives him immense pleasure that Government College (A), Rajahmundry is organizing National Webinar on "Beauty and Ingenuity on Basic Concepts of Algebra (BIA-2K20) on June 4 at Government College (A), Rajahmundry. BIA-2K20 provides an opportunity for meeting of Readers and specialists in the fields of Mathematics. The events in the Webinar are targeted towards practitioners, professionals, educators to share their experience, innovative ideas, issues, recent trends and future directions in fields of Mathematics. He hope eminent speakers will cover the theme "Beauty and Ingenuity on Basic Concepts of Algebra" from different perspectives. He is privileged to say that this webinar will definitely offer suitable solutions to the global issues. The success of this Webinar is solely on the dedication and efforts of innumerable people who started working on the preparations in many ways to make this Webinar become a reality. Eventually he has expressed his special thanks and appreciation to all. He wish BIA-2K20 all the best for its success.

SPEECHES DELIVERED BY THE SPEAKERS

Speaker I

P.S.R.Subrahmanyam
M.Sc,M.Phil (Retired HoD of Mathematics)
Ideal College of Arts and Sciences,Kakinada

His topic on his deliver is “Basic Concepts of Groups & Subgroups”.He explained about the Number System,Binary operations,Associative Law,Identity and Inverse properties with Physical examples which are in daily life.Also he discussed the definitions of Semi-Group,Monoid,Group & Abelian Group with suitable life examples.He explained the concepts involved in the definition of Subgroup and its properties.In this way he reached the aim of the webinar.

Speaker II

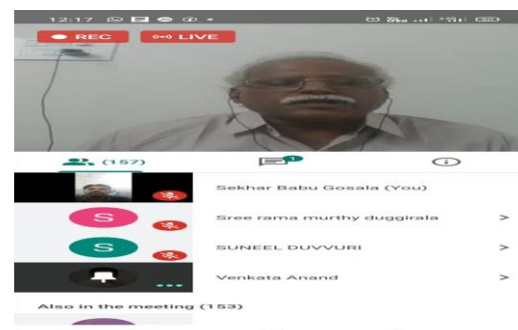

Dr.K.Venkata Rao
Prof. of Mathematics
Government Degree College,Alamuru and also the Alumni
of our college.

His topic is Cosets and Normal Subgroups.He explained the concepts of Cosets,Conjugates Commutations and their Applications in our daily life and also in other areas.He explained about Rubic Cube in Classification of Cosets.He explained the properties of cosets with mathematical examples.He explained basic concepts involved in the definition of Normal Subgroups with suitable physical examples.He also explained the properties of Normal Subgroups with real life examples,which are useful to prove Lagrange’s Theorem in simple manner.Finally he reached the Important Objectives of the Webinar.

Speaker III

Dr.K.V.Anandam
Retired Principal
MVN & JBS Degree College,Malikipuram

The topic of his deliver is Morphisms & Types of Morphisms & Their Applications.He explained the original dictionary meaning of Morphisms.He discussed Definition of Morphisms & Types of Morphisms with suitable examples.In his presentation nhe presented the definition of kernel & its Properties with suitable physical Examples.He also Explained the fundamental Theorem of Homomorphism and the concepts of Isomorphisms,Automorphism,Inner and Outer Automorphismwith suitable life examples.Finally Speaker Reached the aims and Objectives of the Webinar.
