

# Insightful talk marks Wetland Day

PNS ■ RAJAHMUNDRY

In a captivating commemoration of World Wetland Day, the academic community of Government College (A) here on Friday joined hands across departments to organise an insightful talk.

The event was graced by the presence of PAV Udayabhaskar, the Director of AP State Forest Academy.

Director Udayabhaskar, in his lecture, not only illuminated the inherent ecological significance of wetlands but also underscored their undeniable economic value. Drawing attention to Ramsar sites in India, he provided an enriching perspective on the global importance of wetlands.

The inauguration of the programme was conducted by the

College Principal, Prof. Ramachandra R K, who not

only marked the event's beginning but also shared insightful

remarks, highlighting the urgency of conservation efforts

in the face of environmental challenges.

The departmental in-charges Dr. A Srinivasa Rao (Botany), Dr. M.R. Gowtham (Geology) and K. Durga Rao (Zoology) actively engaged with the student participants, emphasizing the responsibility each individual carries in protecting our wetlands.

Their impassioned addresses resonated with a call to action, encouraging students to initiate campaigns for the preservation of these crucial ecosystems.

A diverse array of students and staff members from various departments actively participated in this engaging and informative event, underlining the collective commitment of the college community toward environmental stewardship.
