# FACULTY TRAINING ON AI IN TEACHING

**Date: 31-01-2024**

## **Introduction:**

In response to the growing importance of artificial intelligence (AI) in education, Department of Computer Science, Government College (A) Rajahmundry organized a faculty training program to familiarize educators with AI tools and their applications in teaching. The program was designed to address the need for faculty members to stay a best of technological advancements and leverage AI to enhance the teaching and learning experience.

## **Objectives:**

- To introduce faculty members to various AI tools and technologies relevant to teaching.
- To demonstrate practical applications of AI in educational settings.
- To equip faculty members with the skills necessary to integrate AI tools into their teaching methodologies.
- To foster collaboration and knowledge-sharing among faculty members regarding AI in education.

The faculty training program on AI tools in teaching equipped educators with the knowledge and skills necessary to harness the potential of AI in the classroom effectively. By fostering a culture of innovation and collaboration, the program has laid the foundation for continued exploration and integration of AI technologies in education.
